

POWERFUL PLANT-BASED NUTRITION!

ME-PRO® TYPICAL ANALYSIS

ME-PRO is a plant-based protein ingredient produced as a light-colored and free-flowing powder. ME-PRO is highly digestible 70% crude protein (as fed), with 90% of its phosphorus available to aquatic and terrestrial species.

ME-PRO is produced at a state-of-the-art plant using GMO soybean meal through a proprietary fermentation process. ME-PRO also offers significant amounts of short-chain peptides and free amino acids that confer excellent attractability and palatability properties. The presence of biologically active factors may increase gut micro-biota, reduce intestinal-inflammation, and boost metabolic processes.

ME-PRO is delivered in 55 lbs (25 kg) paper bags that are lined with a 2 mil water barrier and heat-sealed or 2000 lbs (907 kg) super-sacks.

Typical Composition (%)		Minerals		Amino Acids (%)	
Crude Protein (as fed)	73.40	Calcium (%)	0.17	Alanine	3.43
Moisture	4.50	Phosphorus (%)	0.40	Arginine	6.04
Crude Fat	0.85	Available Phosphorus (%)	0.36	Aspartic Acid	8.90
Crude Fiber	5.40	Potassium (%)	0.10	Cystine	1.01
Dietary Fiber	24.8	Magnesium (%)	0.04	Glutamic Acid	14.02
Soluble	4.5	Sodium (%)	<0.01	Glycine	3.28
Insoluble	20.3	Sulfur (% Total)	0.54	Histidine	2.10
Ash	1.30	Iron (ppm)	170	Isoleucine	3.72
Stachyose	0.09	Copper (ppm)	22	Leucine	6.84
Raffinose	0.06	Zinc (ppm)	33	Lysine	4.90
GE (kcal/kg)	4757	Selenium (ppm)	1.1	Methionine	0.97
				Phenylalanine	4.35
				Proline	4.28
				Serine	4.28
				Threonine	3.16
				Tryptophan	0.87
				Tyrosine	3.11
				Valine	3.92
